

# MANAGING HANDOFFS OF MEDIA SERVICE SESSIONS AMONG SERVICE PROVIDERS

## ABSTRACT OF THE INVENTION

A method and system for managing handoff of media service sessions among service providers in a network are disclosed. Information associated with the media service sessions is received at a service manager. The information at the service manager is used to determine whether to initiate a handoff of any of the media service sessions from a service provider to another service provider. Moreover, if it is determined to initiate the handoff, the handoff is initiated.
